Year 1 Autumn One

In Writing we will...
Explore a range of traditional tales, develop our vocabulary and share ideas about characters and events. We will learn to write simple sentences using capital letters, finger spaces and full stops, while using adjectives to make our writing more interesting. We will also practise forming letters correctly and develop neat, clear handwriting.

In Computing we will..
Learn about E-safety, and how to navigate around the computers.

In RE we will..
Explore what it means to belong, both within our families and the wider community, including our school, friendship groups and clubs. We will learn about children from different faiths and discover how their sense of belonging is reflected through their clothing, daily routines, traditions and celebrations.

In Maths we will...
Explore numbers from 0 to 10 by counting, reading, writing, representing and comparing them. We will find one more and one less, learn number bonds, and solve simple addition and subtraction problems within 10.

In Geography, we will...
Explore our local area and identify its key human and physical features. We will use simple maps, follow routes and learn about addresses and postcodes. We will also develop our geographical vocabulary through practical fieldwork and observations.

In Art we will...
Explore the life and work of Pablo Picasso. We will look closely at his artwork and use his ideas to inspire our own creations. We will experiment with colour and texture to produce our own Picasso-inspired artwork in 2D and 3D forms.

In Reading we will...
Read Lost and Found, Our Class Is a Family, The Colour Monster, The Squirrels Who Squabbled and Perfectly Norman. Through these stories, we will explore important themes such as friendship, belonging and understanding our feelings.

In Science we will...
Explore the human body by naming its different parts and learning about their basic functions. Through fun, practical investigations, we will also discover how our five senses help us understand the world around us.

In PE, we will...
Cover football, orienteering, gymnastics and rugby. We will explore different ways of moving safely and confidently, and following sequences to increase our coordination. Take part in outdoor and adventurous challenges, both independently and as part of a team. We will also look at different ways of throwing, hitting, kicking and stopping a ball. Learn how exercise helps us to keep our bodies healthy.
